The Elliott Perry – Cyril F. dos Passos Files at the APRL
by Bonny Farmer and Gini Horn, with Tom Alexander

Elliott Perry (above) and Dr. Cyril Franklin dos Passos (right).

The American Philatelic Research Library maintains two extraordinary collections in its non-circulating holdings: the manuscript and correspondence files of Elliott Perry and Dr. Cyril Franklin dos Passos.

Elliott Perry (1884–1972) was considered the dean of researchers of nineteenth century U.S. postage stamps, from regular issues to carriers and locals. His first articles (on U.S. revenue stamps) appeared in Mekeel's Weekly Stamp News from 1916 to 1930 under the pseudonym “Christopher West.” In 1931 he began publishing his own journal, Pat Paragraphs, which ran until 1952. Following his death, Perry’s journal was compiled and arranged by topic by George T. Turner and Thomas E. Stanton, and (with additional material by the compilers) was published in 1981 as Pat Paragraphs by Elliott Perry.

Although he wrote extensively in all areas of U.S. stamps, much of his published work was devoted to U.S. carriers and locals. With Arthur G. Hall, Perry co-authored The Chatham Square Post Office and Swarts City Dispatch Post (1941) and One Hundred Years Ago: 1842 — Centenary of the First Adhesive Postage Stamp in the United States (1942). Later he expanded the research work of H. Warren K. Hale in Byways of Philately: Privately Owned Posts and Early Locals (1966).
Perry announced plans to produce three additional works — on carriers, U.S. locals, and U.S. independent mail (with Hall) — but none were published in his lifetime, although his extensive notes and partly written sections on U.S. carriers were edited and published posthumously in Robson Lowe's *The Philatelist* (from October 1973 to December 1974), and continued in the U.S. Philatelic Classics Society’s *The Chronicle of U.S. Classic Postal Issues* (from February 1982 to August 1986).

Elliott Perry received the Luft Award for Exceptional Contributions to Philately in 1944 and was elected to the American Philatelic Society Hall of Fame in 1973.

**Dr. Cyril Franklin dos Passos** (1887–1986) was a renowned specialist and researcher on a variety of challenging and controversial philatelic subjects. He wrote prolifically on many topics, including the 10-cent and 24-cent (1861–67) first and second issues, all of the grills (notably the rare B-grill), and all of the Bank Note issues (especially the 15-cent secret markings and the 10-cent and 24-cent varieties).

His works were published mainly in *The American Philatelist*, the *Essay-Proof Journal*, the *SPA Journal*, and in the books of the American Philatelic Congress. He had an exceptional collection of U.S. locals, with a highly specialized collection of the Boyd's locals. He collaborated closely with Elliott Perry on this and other philatelic subjects.

His library contained numerous important research documents. In particular, dos Passos owned a typescript original of the work on U.S. locals written by the controversial Henry C. Needham. Both dos Passos and Perry had published information proving that Needham had tampered with covers and published false information.

Cyril dos Passos was elected to the American Philatelic Society Hall of Fame in 1989.

**THE FILES**

Following are lists of the topics/subjects included in the Elliott Perry and Cyril dos Passos files held by the APRL. All are non-circulating, but may be viewed at the Library.

Dear Pat Perry:

I arrived home Friday morning, and after a very satisfactory four days at Buffalo. I have hunted up the box of locals, and find it contains also various other affiliated material, but am not energetic enough to sort it all over. So I give you that privilege, but you need not return at once the material you do not need to look at. I also asked Fred Hunter's book of counterfeits, mostly locals. I took out all C.S.A. at once, and they are now with the rest of them for August Dietz to study. The Postmasters I gave to Luff, when he was working on his book. If you want to take anything out of this Hunter book, do not hesitate to do so. Mixing them up will not make any difference to me.

There are some genuine stamps in the lot, or so I think. You have my permission to put them in envelopes and label them.

Have been intending to work up the R.R. newspaper package stamps but never got at it. The Penna. R.R. still use their package stamps, at least out of Phila., but I have not found any employee who was interested in them from a philatelic standpoint, so have not been able to get any data on them. The Merchants Union are Sterling's stock, but I left them in the box.

Found son, son-in-law and three grandchildren here, so will be busy tomorrow, and may not get the box off, by express, before Tuesday.

There is no rush about returning them.

Hope you get the worth of my money.

Very truly,

[Signature]

Cyril dos Passos Files

A Note on the Files:
The Correspondence Section comprises nearly two-thirds of the overall collection and has been subdivided as follows:

I. Correspondents (alphabetical)

Correspondence with individuals represents 80 percent of this section. Many of the individuals were stamp dealers with large firms; nevertheless, they were treated as individuals, not companies. Prime examples of this are John Fox,
H.R. Harmer, Jacob Habib, Vahan Mozian, and — of course — Elliott Perry. A "Miscellaneous" file has been created under each letter to hold minor or brief letters falling in any of the following categories.

**Companies:**
- Brooks Stamp Co.
- Elbe File & Binder Co.
- Elite Stamp Co.
- HJMR Co.
- Held Bros.
- Homan Krassa Co.
- Lawrence & Stryker
- Lowdermilk & Co.
- Morgan Stamp Co.
- Nassau Stamp Co.
- New England Stamp Co.

some original manuscript material and photographs.

II. Original Notes Section.
The second section centers around dos Passos’ numerous published and unpublished philatelic papers, and is divided into three parts:
1. Original Notes — Main Subject
2. Original Notes — Abbreviated Title
3. Photos — Subject

The Original Notes section is alphabetically arranged and contains many research notes that cannot be readily linked with one of his published works. These files contain some correspondence and photos that, if separated from the notes, would disturb the continuity of the research.

III. Original Papers Section
This section contains all of the material available pertaining to dos Passos’ published papers. Files may include original notes, original manuscript material, photos, related correspondence, and a copy of the completed work. There are additional autographed copies of his works in these files. The file label has an abbreviated title and a subsequent label describes the subject area. All categories (except Miscellaneous) have a “Misc.” section for papers dealing with that subject but for which no supporting documentation is evident. The original, completed version of the paper is contained in these files.
